> > BI-MONTHLY SUMMURY,

From the China Oversand Trade Report. THE last issue of this Report was dated the 28th Ulto, and was published for transmission per Jeddo, dispatched the day following. The political intelligence therein contained had exclusive reference to occurrences on the valley of the Yangteze, and may be thus summarised. Colonel Gordon, after his repulse had recovered from

flotilla on the Grand Canal, keeping up the communication between Hang-chow and Chin-kianglion, the wealthy and populous districts between the Canal and the Yangtaze, whereon Soochow, Shanghai, Ningpo, and a hundred other important cities stand, as also a great portion of the Silk producing districts. The most beneficial results may be expected should this plan be enrried out, as with the canal for a base, the whole of the Imperial forces now scattered over for operations South of the Conal which would form a most valuable point d'appui. But even should this plan be carried but, much would remain to be done. A large body of Tai-

pings had made an incursion into the Canton Province and had divided themselves into two parties. There was much disatisfaction in the Province owing to the extertions of the Mandarius. The impolicy of the British government granting aid to the Mandarins without imposing such conditions as should necessarily involve efficient and suitable measures for the suppression of the rebellion and the restoration of peace and quiet to, the people, was strongly deprecated, and a hope was expressed, either that conditions of a proper nature would be required, or that negociations with the Taipings would be opened with a view to restrain them from committing those wanton depredations which appear inseperable

from Oriental Warfare, and from which the Chinese people linve suffered most fearfully. The rumor was very general that Sir F: Bruce the British Minister at Peking was about to obtain leave to return to England, and it was feared that his scoretary Mr. Wade, who is mainly responsible for the initiation of the present sad poicy, would succeed to the acting appointment.

The intelligence from Japan-was said to be improving, but it seemed difficult to comprehend how. the British Minister backed by a powerful fleet had put a stop to further acts of eximision. but the expectation of matters reverling even to the state they were in before the lost attack on the British legation at Yedo, scome to have entered no man's mind, and that was far short of the terms of the treaty, the performance of which is now assumed to be insisted on.

The events of the fortnight since clapsed are by no means destitute of interest, In the neighhourhood of the Capital matters appear to be I B very favorable state. The bands of marauders or injurgents who last year committed such bavoc in those districts seem to have disappeared the gutomn barvests were above an average, and

There is perhaps little doubt that desperation bas a good deal to do with the determined resistance of the Taipings at Chang-show. sity of the foreign element, in the Imperial army, and the formidable opposition to be encountered. The perfidy, venality, dishonesty, impracticable obstructiveness, offensive egotism, under hand lying, of the Mandarios are so great, that it is impossible for any European of character or The "Singapore," leaves to-day, at standing to serve under them. It is abundantly clear, if the European element be withdrawn from the Imperial ranks, at the present juncture, that the Taipings will again obtain the upper hand: and it seems all but certain, that the Europeans will be withdrawn-Even if an officer of Colonel Godorn's fathom could be obtained in his place, there are no visible means of placing him Amoy and Foochow, on Sunday, the in the Colonel's present independent position with respect to the Mandarias, without which he would Mails be a simple scape-goat—Besides the extreme odium in which the Mandrins are held, the suspension of the Queen's order in Council, the excessive mortality which has lately occurred, will surely combine with the retirement of Colonel Gordon, to extinguish the foreign element for an effective purpose, in the Imperial ranks. The only hope rests in the continuence of Co-lonel Gordon in the service. His value is so fully appreciated by the mandarins, that possibly he MASIA GAMBRILL may be able to dictate his own terms in considera- SIR ISAAC NEWTON tion of renewing his cogagement-should those terms; as they doubtless would, dietate as a sine TITANIA que non, the formation of a properly constructed military organization, altogether independent of the provincial authorities, funds being duly set Brono, apart for the purpose out of the customs revenue. And this be it observed, in the face of the whole province of Chekinng, which they had lost and abandoned, being

restored to them. Under the proper heading will be found an auqual report of the French municipality at Shanghai-which, considering that the trade between France and China is quite insignificant, appears a Bonito. singular anomaly. Trude continues dull, the new season's teas beng almost due. Bice is in pretty good demand, and the prospects for shipping are good.

The intelligence from Japan goes far to corroborate the views last ventured on. Further overt | Bedfordshire, acts of restricting commerce have been made on Sophie, the part of government officials, and all sorts of Emily, rumors are current with respect to alterations in the constitution. Nothing seems more improbable than a concession based on treaty rights. Expulsion is clearly determined upon, and nothing but coercion will prevent it. The British fleet con-tinues to accumulate in Yedo bay, a regiment of the line, and the ship Conqueror with a large number of Marines on board, are now here await- Penguin, ing orders from Japan. No doubt diplomacy will be put to its utmost stretch to avert hostilities, but as feudal nobles never yet yielded from persussion, the Japanese Daimios are hardly likely to form an exception. The expedition to the Straits of Simonisaki, to coerce the Prince of his wound and had taken the field, forming a Nagato who at that point blockades the passage junction with the Futai, who in consequence of into the inland sea and materially interferes with THIS DOOK, built of Granite, has been in General Ching being wounded, had taken the thorough Working Order for nearly Two field in person.
